To Our Valued Customers,

It is with great sadness we write the second letter of this type in less than six months. You've likely heard about new shipping restrictions on vapor products included with the stimulus bill Congress passed in December. The act is called the "Preventing Online Sales of E-Cigarettes to Children Act," and it is essentially a "vape mail ban." It includes all vapor products in the pre-existing [Prevent All Cigarette Trafficking \(PACT\) Act](#), which requires stringent reporting and state tax collection and compliance, and prohibits the U.S. Postal Service from delivering cigarettes, smokeless tobacco and now vapor products directly to consumers.

The PACT provisions of the new law go into effect 90 days from December 21, 2020. The U.S. Postal Service must create its own set of regulations for vapor products within 120 days. You can read the bill's exact wording [here on page 5136.](#))

It was initially thought other carrier options might be available, but since December, FedEx, UPS and DHL have all updated their policies to cease shipping vapor products entirely. The geographics of our customers, the significant compliance costs, and the resources available to us as a small business, have created a hurdle we can't possibly jump. Unfortunately, this will impact all vapor product businesses shipping products to consumers.

We don't yet know how this will affect DIY products, but we know without a doubt the restrictions apply to vapor equipment. We have marked all equipment for clearance at a minimum of 50% off. This pricing will continue while supplies last or until USPS publishes and their regulations, whichever comes first.

Please stock up on all vaping supplies, whether from us or any other vapor company. If you have orders or questions, please reach out to our sales team at 1-501-412-0087 and we will assist you as we are able.

We thank you for being one of our amazing, valued customers.

Most Sincerely,
The Entire *eJuiceMonkeys* Team
JRILY* Enterprises. LLC
